This exploded view diagram illustrates the components of a water filter assembly. The parts are numbered as follows:

- 1**: Main filter housing with a top cap and a side handle.
- 2**: A cylindrical pre-filter or sediment filter.
- 3**: A black O-ring or seal.
- 4**: A curved, flexible filter element or mesh.
- 5**: Two coiled springs, likely for the pre-filter.
- 6**: A curved, flexible filter element or mesh, similar to part 4.
- 7**: A black O-ring or seal, similar to part 3.
- 8**: A long, cylindrical filter element or cartridge.

The diagram shows the assembly sequence from the bottom (BOILER) to the top (RINSING). The main housing (1) is shown at the top, with the pre-filter (2) and its springs (5) below it. The curved filter element (4) is shown to the right of the pre-filter. The O-ring (3) is shown below the pre-filter. The main filter element (6) is shown below the O-ring. The O-ring (7) is shown below the main filter element. The long cylindrical filter element (8) is shown at the bottom, with a dashed line indicating its position relative to the main housing.
